MINISTER
MINISTRY OF WOMEN & CHILD DEVELOPMENT
GOVERNMENT OF INDIA
NEW DELHI-110001

12th December, 2018

To whom it may concern

Mental health of women is an important concern of the Ministry of Women and Child Welfare. Shraddha Rehabilitation Centre has done very important work in the rescue and rehabilitation of women with mental health problems. The founder Dr Bharat Vatwani has recently been awarded the Magsaysay Award for his good work over the years.

This is to authorize any Social Worker, who has in turn been authorized by the Founder Trustee Dr Bharat Vatwani of Shraddha Rehabilitation Foundation, to assess the destitute female inmates within any Government Mental Hospital/Institution, in order to help trace out the antecedent families of these wandering mentally ill-destitutes sheltered in the said Hospital/Institution.

I hereby also authorize that ultimately these destitutes be allowed to be escorted by the Social Workers of Shraddha Rehabilitation Foundation to be reunited with their families, in whichever part of India they may be located.

I believe this initiative on the part of Shraddha Rehabilitation Foundation will pave the way for greater rehabilitation of the wandering mentally ill roadside female destitutes housed and sheltered in our Government Mental Hospitals/Institutions.

Dated: 6th December, 2018

To,

Superintendent of all Mental Asylum under Govt. of India,

Subject : Association of Shraddha Rehabilitation Foundation with Mental Asylum - Reg.

Sir/Madam,

I am directed to say that Shraddha Rehabilitation Foundation, Mumbai is working for the welfare of mentally-ill destitute women. The foundation is willing to be associated with Mental Asylum for the welfare of needy women.

2. You may kindly consider to associate the Shraddha Rehabilitation Foundation as per your convenience so that the Foundation could extend help to the needy women.

3. This issues with the approval of Hon'ble Minister for Women and Child Development.

Yours faithfully,

M. K. Prabhakar

(M. K. Prabhakar)

Under Secretary to Govt. of India

Tel. : 011-23381970

Copy to :

1. Principle Secretary, Department of Health, State Government/UT Administration
2. Dr. Bharat Vatwani, Shraddha Rehabilitation Foundation, Behind Shanti Ashram, Opp. Eskay Resorts, Next to Amazon Park, Off New Link Road, Borivali (W), Mumbai-400103. May like to take up with Superintendent of Mental Asylum under GOI.

Copy for information to : PS to Hon'ble Minister, WCD

MoU Between Shraddha & Tamil Nadu Institute of Mental Health (IMH) - August 2021

Similar MoUs signed with Andhra Pradesh & Maharashtra State Mental Health Authorities

MoUs signed with Govt run Shelter AUTD in Visakhapatnam, Andhra Pradesh & Motilal Nehru Govt Hospital, Prayagraj, Uttar Pradesh

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MOU) is entered into this day of 20th August 2021 by and between:

Institute of Mental Health, Medavakkam Tank Road, Kilpauk, Chennai - 600 010 (herein referred to as "IMH") is the second largest Govt Institution in India taking care of the mental health care needs of Tamil Nadu & Pondichery.

AND

Shraddha Rehabilitation Foundation, headquartered at Mumbai, Maharashtra (with its rehabilitation center based in Karjat) is an NGO registered under the Bombay Public Trust Act of 1950, (hereinafter referred to as "SRF") which works specifically for the cause of the wandering mentally ill destitutes on the streets of India.

IMH as the parent institution is willing to handover the improved/ recovered mentally ill destitute patients hailing from the northern states of India to SRF for rehabilitation and reunion with their families.

And WHEREAS, SRF is glad to provide the expert services of rehabilitation and reunion of destitutes referred and shifted from IMH.

The main objectives of this project are:

1. To select and shift maximum number of recovered mentally ill destitutes (fit for discharge) from IMH to SRF.
2. To rehabilitate and reunite these destitutes with their long lost families.

Direct Project outcomes:

- a) Patients who have wandered out under the influence of mental illness are provided with appropriate sheltered care & psychiatric treatment.
- b) Post achievement of psychiatric stability these patients are reunited with their family members across India and nearby countries (such as Nepal).
- c) Discharging recovered/ improved mentally ill patients from IMH in turn provides vibrant opportunity to reach/ admit new destitute patients reducing the overall load of the wandering mentally ill population on the streets of Tamil Nadu state.

Indirect Project Outcomes:

- a) Better sensitization on the treatability of mental illness focussed on reduction/ removal of stigma surrounding the same across India en-route and during reunions.
- b) Other families/ relatives/ guardians with patients undergoing mental illness try to approach the nearby psychiatric care giving centres for treatment is another indirect impact of sensitization done.
- c) Consequently many individuals may be saved from becoming a wandering mentally ill destitute, which in turn will reduce a much anticipated surge in the already existing numbers.

Roles and responsibilities of the IMH, Chennai:

1. IMH communicates with SRF about batch of recovered destitutes.
2. Initiates paper work for discharge and reunion.
3. The selected patients are shifted to SRF rehabilitation center based in Karjat along with a few staff from IMH covering the travel & food expenses.

Roles and responsibilities of Shraddha Rehabilitation Foundation:

1. Social Worker visits institute with an authorization letter from Dr Bharat Vatwani (Founder Trustee & Chief Psychiatrist) offering SRF services of destitute rehabilitation & reunion with family/ relatives.
2. Inmates/ patients with a stable psychiatric status and physical condition able to share address are selected.
3. Upon receipt of permission from respective authorities the selected patients are shifted to SRF' rehabilitation center based in Karjat along with a few staff from IMH.
4. Their medicines may be further adjusted depending upon the changes observed in their mental status by either Dr Bharat Vatwani or the other Psychiatrists attending to them in Karjat facility.
5. Patients are then taken to reunion with their families/ relatives.
6. As a proof of reunion SRF will try to maintain the below mentioned documents:
 - A) Photograph depicting reunion with family members/ relatives,
 - B) Identity & address proof of the relative or any similar available document.
 - C) Written acknowledgement containing detailed address, contact number of the family/ relative/ caregiver/ guardian and relevant details acknowledging that their patient/ relative has been received by them.

The copy of these documents will be shared with IMH.

7. Most of the patients get reunited successfully. But in a few cases wherein reunion fails due to family being untraceable or non-acceptance, the patient is shifted to a local reputed government recognized NGO or else will be shifted/ transferred back to IMH.

8. Very rarely and inadvertently a few of the patients leave Shraddha either during their stay in the Karjat Center or during the journey of the reunion trips itself, under the influence of the mental illness. In such cases the details of these patients will also be updated to IMH.

Duration & Term:

This MOU shall commence from the Effective Date and the collaboration will continue till the time unless withdrawn with mutual consent and information.

Entire Agreement:

This MOU contains the entire understanding of the Parties with respect to the matters provided for herein and supersedes any and all other prior agreements, covenants, arrangements, communications, representations or warranties, whether oral or in writing, by any of the Parties or by any officer, employee or representative of any Party with respect to such matters.

HIMACHAL Tribune

Serving those in need

Mentally-ill patients to be reunited with families

BHANU P LOHUMI

As many as 11 patients of Himachal hospital of Mental Health and Rehab, Shimla, will be rehabilitated and reunited with their families soon, courtesy Shradha Rehabilitation Foundation, Mumbai, working for the rehabilitation for mentally ill destitute living alongside road.

Dr Sanjay Pathak, Senior Medical Superintendent at Himachal Hospital of Mental Health and Rehab, Shimla, was apprised of the humanitarian work being done by the foundation and he got in touch with the Dr Bharat Vatwani, Trustee of the foundation, requesting him to rehabilitate long-stay patients, who were cured and discharged from different states, but were languishing in the hospital for the lack of social support.

The foundation has come forward to take 11 long-stay patients to their Karjat Centre for rehabilitation and reunion with families, he said, adding that the foundation had been instrumental in uniting hundreds of such patients with their families. Dr Vikesh got in touch with the doctors working at the foundation and received a call, conveying that the foundation was willing to help them out.

A five-member team of the foundation comprising social workers Shailesh Sharma, Deena Nath Nishad, Ramakant Doddi, Laxmi Priya

Patient rehabilitated

The 11 patients include four women in the age group of 25 to 40 from Santosh Nagar, Mumbai, (Maharashtra), Mahboob Nagar, Telangana, Bareilly, Uttar Pradesh, and Puruliya, West Bengal. The other patients in the age group of 35 to 50 are from, Bihar, Tamil Nadu, Madhya Pradesh, Gujarat, West Bengal and two from Nepal.

Objectives of the foundation

To rescue maximum number of mentally-ill destitute persons, provide free shelter, food and psychiatric treatment to those rescued, trace out addresses of such persons and reunite them with their lost families in any part of India, promote massive mental health awareness among rural villages, families, police personnel, railway officials and the public, create network with other NGOs and government mental hospitals in other states to make collective effort.

Bishnoi and Namrata Bisht visited Shimla on May 23 and 24 to evaluate and select the inmates for rehabilitation and reunion with their families and took the inmates with them.

The team said these patients were neither aggressive nor forgetful. They were able to understand and make out what was to be done. The foundation would trace addresses of the destitute persons and reunite them with their lost families in any part of India.

These inmates were taken to Chandigarh, from where they boarded a train to Kalyan. "I have always felt that the recovered mentally ill roadside destitute deserves to be with their family and that we must make

an attempt to reunite them," said Bharat Vatwani.

There are 62 beds at the centre in Shimla, which remains packed to capacity and with shifting of these patients, space will be created to accommodate 11 more patients. Most of the patients are from other states.

While shortage of psychiatrists and poor facilities for taking care of mentally sick persons in the government sector has widened the treatment gap in mental health and impeded the rehabilitation of such patients. Organisations such as Shradha Rehabilitation Foundation, Mumbai, is providing yeoman service by rehabilitating such patients.

11 patients transferred from Himachal Hospital of Mental Health to Shradha Karjat - Dr Sanjay Pathak & Dr Vikesh Gupta

Pune: Over 25 years after she went missing, SRF reunites 55-yr-old with her family

The joy of Christmas doubled for the Catholic family, which had lost all hope.

Rani Shamrao Wankhede (fourth from left) with her relatives and SRF volunteers.

Written by Amandeep

Rani Shamrao Wankhede, a resident of Nagpur who had gone missing from home over 25 years ago, was reunited with her family with the help of Karjat-based Shraddha Rehabilitation Foundation (SRF), on December 25. The 55-year-old is the mother of three — two daughters and a son.

The joy of Christmas doubled for the Catholic family, which had lost all hope. Both of Rani's daughters got married in the time she had been separated from her family.

“We were very young when our mother left. Everyone told us that she must have died. All of us were surprised and happy when she returned,” said Saroj Siddhartha Gajbiye, Rani's daughter.

In October 2018, a severely ill Rani was found on a road in Himachal Pradesh by Dr Sadhana Thakur, chairperson of HP Red Cross Society. She was then admitted to Himachal Hospital for Mental Health and Rehabilitation (HHMHR), Shimla, where her treatment was started. It was in May 2019 that members of SRF went to HHMHR for an assessment. Post this, she was transferred to SRF in Karjat, where her treatment continued under Dr Bharat Vatwani, a psychiatrist and founder trustee of SRF, who was awarded the Ramon Magsaysay Award in 2018. After Rani started communicating properly, she gave information about her family and her address.

“The reason why all of us at SRF continue our work is because of the immense satisfaction we get out of it. Rehabilitating people, who are wandering on the roads, is something we need to do as a society, so that these people can get their rights and be respected,” said Dr Vatwani.

SRF has done extensive work in rehabilitating mentally ill patients who have lost their homes, lives and families. The foundation, to date, has rehabilitated over 8,000 such patients. SRF provides free shelter, food and psychiatric treatment to these people. Alongside that, the organisation also carries out mental health awareness programmes.

Miracle reunion after 22 years

Regional mental hospital treats patient successfully; son tracks down mother, thanks to Shradha Foundation

Laxman More
laxman.more@punemirror.com
@ThePuneMirror

Laxmi, a woman from Karnataka's Bellary district, who had gone missing 22 years ago, finally returned home, bringing tears of joy to her children. After suffering a severe mental breakdown following the birth of her three children, Laxmi would frequently wander off from home. Her husband would bring her back each time until one day, she left and never returned.

Her children, deprived of a mother's love, had lost all hope. But fate had other plans. In October 2016, Laxmi arrived in Indapur, Maharashtra alone, frail, wielding a stick, and lashing out at anyone who approached. The police, under the order of the Shivajinagar Court, admitted her to Yerwada Regional Mental Hospital for treatment.

Thanks to extensive care, she eventually recovered. A year ago, with relentless efforts from Karjat-based Shradha Foundation and the Yerwada Hospital, Laxmi was deemed fit to return home. Two daughters and a son from her family came all the way to Shradha Foundation to take her back. The reunion was heartwarming. Though weak and wheelchair-bound, she was still their mother. Her children had spent years worshipping her saree in her absence such was the depth of their longing.

The heartwarming reunion of Laxmi (in wheelchair) with her family

Today, her daughter is a nurse and her son drives a pick-up vehicle for a living. Their father had passed away a few years ago. But with their mother's return, the family feels whole again.

Behind the reunion - A mission of humanity

Two years ago, Shradha Foundation took charge of Laxmi's rehabilitation. Their team, determined to trace her roots, travelled

to Bellary and showed her photographs to locals. These efforts paid off eventually, and a local volunteer passed on the photo to Laxmi's son.

Unfortunately, the ambulance that had brought her had already left. But her son didn't give up. Using a CCTV camera, he noted the contact number printed on the ambulance and reached out to the Foundation. As soon as he confirmed that his mother was there, he rushed to

HOW IT HAPPENED

- Laxmi, a woman from Karnataka's Bellary district, went missing 22 years ago
- She was found, admitted at Yerwada regional mental hospital and treated successfully
- Shradha Foundation did its best to trace her family
- The photo distributed by the foundation reached her son, who reached out to them

“Around 150 patients are long-term residents at Yerwada Mental Hospital. We're making efforts to send them home. But we need support from both families and society.”

— Dr Shrinivas Kolode, Superintendent, Yerwada Mental Hospital

Karjat. The emotional moment when the siblings saw their mother again moved everyone to tears.

Expert opinion

“Laxmi developed mental illness when her daughter was just two years old. Due to stress and lack of awareness during childbirth, she never received timely treatment. If

mental health issues in women are diagnosed early, recovery is very much possible. That helps protect both families and society from falling apart,” said Dr Kshama Rathod, senior psychiatrist.

Dedicated team behind the miracle

Staff at the Yerwada Hospital's elderly and disabled ward including psychiatric nurse Mangal Bangar, social welfare superintendent Farida Shaikh, and Vasappa Birajdar tried to trace Laxmi's roots by conversing with her in Kannada. Alongside, Dr Bharat Vatwani of Shradha Foundation, who spearheads the mission to reunite mental health patients with their families, played a key role. So far, the mission has successfully rehabilitated 73 patients with their families across Maharashtra and other states, revealed Bhausaheb Mane, the programme coordinator.

Another expert weighs in

“Around 150 patients are long-term residents at Yerwada Mental Hospital. We're making efforts to send them home. But we need support from both families and society. Along with medication, these patients need love. Only then can we overcome the stigma around mental illness,” said Dr Shrinivas Kolode, Superintendent, Yerwada Regional Mental Hospital.

05.06.2025

तब्बल २२ वर्षांनंतर भेटली 'माय' येरवडा मनोरुग्णालय, श्रद्धा फाउंडेशनच्या प्रयत्नांना यश

पुणे, ता. ५ : मुलगा, दोन मुली अशा तीन चिमुकल्यांना जन्म दिल्यानंतर मानसिक आजारामुळे कर्नाटकमधील बेल्लरी जिल्ह्यातील 'लक्ष्मी' (वय ५८) घर सोडून निघून गेली. आईच्या मायेने पोरेके झालेल्या मुलांनी तिची आशा सोडली होती. आता आई या जगात नसेल या विचाराने तिच्या जपून ठेवलेल्या साडीची ते २२ वर्षे पूजा करायचे. पंतु येरवडा मनोरुग्णालय व श्रद्धा फाउंडेशनच्या प्रयत्नांने त्या भावंडांना २७ मे रोजी माय 'लक्ष्मी' पुन्हा भेटल्याने त्यांच्या आनंदाला पारवार उरला नाही.

मानसिक आजाराने ग्रस्तलेली लक्ष्मी वारंवार घर सोडून जायची.

पती पेदना तिला पुन्हा पुन्हा शोषून आणत होता. पण एके दिवशी तो हलवला ते कायमचंच. त्यातच तिच्या पतीचे २००६ मध्ये निधन झाले व तीन मुले पोरेकी झाली. दरम्यान, कर्नाटकातून घराबाहेर पडलेली लक्ष्मी भटकत-भटकत ऑक्टोबर २०१६ मध्ये इंदापूरला पोहोचली. भिकाऱ्यांच्या वेशात असलेली लक्ष्मी दिसेल त्यावर काठो उगारायची. स्थानिक पोलिसांनी शिवाजीनगर न्यायालयाच्या आदेशाने तिला येरवडा प्रादेशिक मनोरुग्णालयात दाखल केले. येथे उपचार घेऊन ती बरीही झाली.

आता प्रश्न होता तिच्या घरच्यांना शोधण्याचा. पुनर्वसन करण्याच्या उद्देशाने तिला दोन वर्षांपूर्वी येरवडा

प्रास्ताच्या काळात ताणतणाव व घरातील अज्ञानामुळे उपचार घेता आले नाही. वेळीच मानसिक आजाराने निदान झाल्यास उपचार होऊन रुग्ण बरे होऊ शकतात. जेणेकरून कुटुंबाची व समाजाची घडी विस्कटणार नाही.

- डॉ. क्षमा राठोड, वरिष्ठ मनोविकारतज्ज्ञ, येरवडा मनोरुग्णालय

येरवडा प्रादेशिक मनोरुग्णालयात दीडवर्षे रुग्ण दीर्घकालीन वास्तव्यास आहेत. या रुग्णांना घरी सोडण्यासाठी प्रयत्न केले जातात. यासाठी रुग्णांच्या नातेवाइकांनी व समाजाने सहकार्य करण्याची गरज आहे. औषधासोबतच रुग्णांना प्रेमची गरज असते. तसेच समाजातील मानसिक आजाराने ग्रस्त रुग्णांना मात करू शकतो.

- डॉ. श्रीनिवास कोलोडे, अधीक्षक, प्रादेशिक मनोरुग्णालय येरवडा, पुणे

मनोरुग्णालयात राहणाऱ्या रुग्णांच्यातून राहणाऱ्या लक्ष्मीला तिला घरी पाठवण्यात आले. तेथील संस्थेतील कार्यकर्त्यांनी तिला बोलते करून मिळालेल्या माहितीनुसार तिच्या

घरच्यांचा शोध घेण्यासाठी रुग्णवाहिकेने कर्नाटकातील बेल्लरी जिल्ह्यातील मुल्लार पेटणाव गाठले. तेथील लोकांना भाषेची अडचण असल्याने त्यांनी लक्ष्मीचे छायाचित्र दाखवून

आईसाठी व्यंकटेशचा पाठपुरावा

आईच्या प्रेमासाठी आतुलेल्या व्यंकटेशने चिकाटी न सोडता सीसीटीव्ही कॅमेऱ्यांच्या माध्यमातून रुग्णवाहिकेवर लिहिलेल्या मोबाईल नंबरवर संस्थेत संपर्क साधला. या वेळी आई तेथे असल्याचे समजताच त्याने क्षणाचाही विलंब न करता दोन बहिणी लिंगाम्मा व हनुमक्का यांच्यासह फाउंडेशनचे पुनर्वसन केंद्र गाठले. तेथे आईला पाहिल्यानंतर त्यांच्या डोळ्यातून आनंदाश्रू वाहू लागले. व्यंकटेश हा स्वतःची मालवाहू गाडी चालवतो, तर हनुमक्का परिचारिका आहे.

संस्थेचा अविगत प्रयत्न

परिचारिका मंगल बांगर, समाजसेविका फरीदा शेख आणि वसया बिराजदार यांनी कन्नड भाषेत लक्ष्मीशी संवाद साधत तिच्या गावाचा शोध घेतला. श्रद्धा फाउंडेशनचे डॉ. भरत वाटवानी यांच्या नेतृत्वाखाली डॉ. श्रीनिवास मोरे, समाजसेविका नीलम राणा शिरसाट, सिद्ध धुमालवार, मोलेश गाडे व सहकाऱ्यांनी त्यासाठी प्रयत्न केले. आत्तापर्यंत ७३ रुग्णांचे पुनर्वसन आम्ही राहत्यासह परराष्ट्रांत यशस्वीपणे केलेल्याची माहिती मोहीम समन्वयक धारुसाहेब माने यांनी दिली.

कुटुंबाची चौकशी केली. परंतु त्या पत्न्यावर लक्ष्मीचे कुटुंब नसल्याने ते पुन्हा परतले. दरम्यान, लक्ष्मीचा मुलगा व्यंकटेशला याबाबत माहिती मिळाली. मात्र, तो गावात येईपर्यंत फाउंडेशनचे सहकारी निघून गेले होते.

UPDATED: MARCH 19, 2012 14:27 IST

Six women, four men handed over to Shraddha rehab centre for identifying kin

For the batch of six women and four men the long and arduous journey that could possibly take them back home after a turbulent period of wandering has just commenced with a small step from Trust Shanthivanam near Seethapatti in the district but proximate to Tiruchi.

After a tenure of rehabilitation coupled with solace and understanding, the inmates of Shanthivanam were on Sunday handed over to caretakers from Shraddha Rehabilitation Centre, Karjat, Maharashtra, en route to identifying their kith and kin at their native villages in northern India and reunite with them.

With untold hopes, eyes filled with tears and exuding gloomy surprise the batch of mentally ill wanderers, picked up and rehabilitated by the professionals at Shanthivanam, boarded the train.

While Kailash, Nepali and Girija are from Maharashtra, Kamlesh and Santoshi are from Madhya Pradesh. Nirola hails from Kamrup district of Assam, Sarojini is from Ranchi, Bihar.

Manjula Patil belongs to Bijapur district in Karnataka while Venkatarao has his family in Guntur, Andhra Pradesh, and Najma Begum longs to see her family members residing in Aligarh, Uttar Pradesh. All of them have one thing in common – they all are wandering mentally ill destitute, having either schizophrenia or other psychiatric disorders.

“There are 10 others from the northern States under our care at Shanthivanam but they have to wait for their turn as we have just initiated the experiment after signing a memorandum of understanding with Shraddha Rehabilitation Foundation for Mentally Ill, Borivalli, Mumbai,” says K. Ramakrishnan, executive secretary, Trust Shanthivanam. Two staff from Shraddha came to take the batch of 10 persons to Mumbai and the group is being escorted by two staff belonging to Shanthivanam.

Mr. Ramakrishnan notes that Shraddha will refer standard Tamil speaking mentally ill wanderers rescued in Mumbai and other areas where the voluntary organisation works to Shanthivanam for early treatment and rehabilitation or a possible reunion with their relatives here.

The foundation has been picking up roadside mentally ill destitute, providing them treatment and reuniting them with their relatives for close to a quarter of a century now.

There are 85 inmates under rehabilitation while over 2,000 have been reunited with their families due to the efforts of the Shraddha Foundation and its founder trustee Bharat Vatwani.

Maharashtra: New beginning awaits 25 differently-abled patients at Karjat rehab centre

Dr Bharat Vatwani, the founder trustee of Shraddha Rehabilitation Foundation and Magsaysay award winner, expressed hope that the patients on the path of recovery would soon be reunited with their families.

After a nearly two-hour drive, the patients, along with five social workers and support staff, reached the centre at Karjat. (Express)

It is going to be a new dawn for the 25 differently-abled patients from government-run mental hospitals and other private healthcare facilities in [Chennai](#) who have travelled all the way to a Karjat-based rehabilitation centre, near [Pune](#) in Maharashtra.

As they alighted from the train at Pune railway station Wednesday a bus from Shraddha Rehabilitation Foundation was waiting outside to welcome the patients, who are on the recovery path. After a nearly two-hour drive, the patients, along with five social workers and support staff, reached the centre at Karjat.

They will be reunited with their families soon, Dr Bharat Vatwani, founder trustee of Shraddha Rehabilitation Foundation and Magsaysay award winner told [The Indian Express](#).

The foundation, set up in 1988, has reunited at least 9,000 differently-abled persons with their families in the last 15-16 years, said Dr Vatwani who added that this was for the first time a large group of patients have been shifted from a mental hospital to our rehabilitation centre.

The centre was started to deal with differently-abled destitute persons wandering on the streets. Hence, the foundation does not admit patients brought by family members. It set up the Karjat project in 2006. Services at the foundation are free of charge.

“These are unfortunate men and women whom you often see wandering on roads, lost in their own world, laughing and talking to themselves, with dirty long matted hair, half naked and skinny in appearance. They survive on gutter water and leftovers of food thrown at them by passers-by. With no one to look after them they are on the roads for weeks and months together,” Dr Vatwani said.

The foundation has tied up with various mental institutions across the country. The latest batch of 25 patients is mainly from north India and they find it difficult to communicate due to limited knowledge of the language.

“These patients were selected from different institutions in Tamil Nadu, including the government-run Institute of Mental Health Chennai and Emergency Care and Recovery Centre, Chennai, and others like Anbagam NGO Tamil Nadu and St Giuseppe Moscati Psycho-Social Rehabilitation Centre Tamil Nadu by our team. The social workers in Tamil Nadu find it a challenge to communicate with them due to language barriers. However, they are on their path to recovery and we will now try to reunite the 25 patients with their families,” Dr Vatwani said.

Meanwhile, several organisations in Pune will host a series of programmes on the occasion of World Mental Health Day which falls on October 10 to create awareness about mental health. Dr Mridula Apte, a clinical psychologist who heads Vidula Psychological Consultancy, said her firm will conduct an awareness programme in association with the Pune Metro Rail to inform citizens of the facts related to mental health.

This year’s theme of the World Health Organisation’s (WHO) is to make mental health and well-being a global priority. A recent report shows that the world is failing in ‘our duty of care’ to protect the mental health, and well-being of healthcare workers. ‘Our duty of care’ is a global call for action to protect the mental health of health and care workers. It examines the impact of the Covid pandemic on the mental health of the health and care workforce and offers 10 policy actions as a framework for immediate follow-up by employers, organizations and policy-makers.

A report by the Qatar Foundation, World Innovation Summit for Health (WISH), in collaboration with the WHO finds that at least a quarter of health and care workers surveyed have reported anxiety, depression and burnout symptoms.

The report found that 23 to 46 per cent of health and care workers reported symptoms of anxiety during the Covid pandemic and 20 to 37 per cent experienced depressive symptoms. Burnout among health and care workers during the pandemic ranged from 41 to 52 per cent in pooled estimates as per the report.

Kolhapur - 06/02/2025

Man missing for 20 years returns home to his family

Abhijeet.Patil
@timesofindia.com

Kolhapur: A 60-year-old from Sangli's Dongarsoni village, who went missing nearly 20 years ago, reunited with his family earlier this month.

Tukaram Shinde was undergoing treatment at a Miraj-based hospital for a mental health issue 20 years ago when he left without telling anyone. A complaint was lodged with the police then, but weeks of searching yielded no results.

However, Shinde's wife, Latika, remained hopeful. On Feb 2, her prayers were answered when Shinde returned home. The Karjat-based Shraddha Rehabilitation Foundation, founded by Magsaysay award winner Bharat Vatwani, facilitated the reunion. A social worker associated with the NGO had spotted Shinde at an ashram in Nepal and brought him to Mumbai. Shinde received treatment for a month and then recalled the name of his village.

Ajay Ransure, a social worker at the NGO, said, "Our NGO has rehabilitated more than 10,000 destitute people. During our visit to the Manav Seva ashram in Nepal, we found Tukaram Shinde and brought him back to Mumbai for treatment. After a month-long treatment, he then started remembering things and told us about his family and village.

Tukaram Shinde (in black), who was missing for 20 years, chats with his childhood friends at Dongarsoni village of Sangli district

Then we decided to reunite him with his family."

Ransure said the foundation has provided medicines that will last two months. Thereafter, the required medicines will be delivered to Shinde by post. Shinde had been in Nepalese ashram since April 2019, according to the records accessed by Ransure.

Shinde and his wife have one son who lives in another village. Latika has spent the

past 20 years on her own. "I was confident that my husband would return. I don't know why he left us, but we are happy that he is back," said Latika, speaking over the phone.

Shinde's friends and other villagers are also celebrating his return. The gram panchayat felicitated Ransure and his colleague, Manisha Bhadradi, and gave them a certificate of appreciation.

वीस वर्षांपासून बेपत्ता व्यक्तीला मिळाले कुटुंब

रिहबिलिटेशन फाउंडेशनची माणुसकी; पदाधिकाऱ्यांनी नेपाळमधून थेट डोंगरसोनीत आणून घडविली भेट

▼ तासगाव, (वा.) वीस वर्षांपूर्वी घरातून बेपत्ता झालेले डोंगरसोनी (ता. तासगाव) येथील तुकाराम शिंदे चक्क नेपाळमध्ये सापडले. सोमवारी रिहबिलिटेशन फाउंडेशनच्या पदाधिकाऱ्यांनी त्यांना डोंगरसोनीत आणून कुटुंबीयांशी भेट घडवून आणली. या भेटीने कुटुंबीयांना सुखद धक्का बसला.

तुकाराम शिंदे यांचा डोंगरसोनी गावात सलून व्यवसाय होता. त्यांना पत्नी आणि एक मुलगा आहे. सुमारे २० वर्षांपूर्वी त्यांना मानसिक आजार झाला होता. याच आजाराने ते गाव सोडून गेले. त्यांच्या कुटुंबीयांनी अनेक वर्षे शोध

घेतला. मात्र कोठेच शोध लागला नाही. पोलिसांनीदेखील शोध घेण्याचा प्रयत्न केला. अखेर कुटुंबीयांनी शिंदे परत येतील, ही अशा सोडून दिली होती. मात्र अनपेक्षितपणे शिंदे यांच्या पत्नी आणि मुलाला सोमवारी शिंदे यांच्या घरी आगमन झाल्यामुळे सुखद धक्का बसला.

सामाजिक संस्थेत आढळले

रिहबिलिटेशन फाउंडेशन संस्था मानसिकदृष्ट्या आजारी असणाऱ्या रुग्णांसाठी काम करतात. या संस्थेचे पदाधिकारी काही दिवसांपूर्वी नेपाळ येथील काही रुग्णांना सोडण्यासाठी नेपाळला गेले होते. यावेळी तेथे अशाच प्रकारे काम करणाऱ्या एका सामाजिक संस्थेत मराठी भाषिक असणारे शिंदे आढळून आले.

कुटुंबीयांना

सुखद धक्का बसला

अधिक तपास केल्यानंतर शिंदे यांचे मूळ गाव डोंगरसोनी असल्याचे समजले. त्यानंतर संस्थेचे अजय रणमुरे आणि मनीषा भराडिया हे तुकाराम शिंदे यांना घेऊन थेट त्यांच्या घरी दाखल झाले. तब्बल वीस वर्षांनंतर शिंदे घरी परतल्याने कुटुंबीयांना सुखद धक्का बसला. यावेळी माजी उपसरपंच किशोर कोडग, माजी पंचायत समिती सदस्य दिनकर झांबरे, रघुनाथ झांबरे सर्जेराव झांबरे त्यांचे कुटुंबीय यांच्यासह पदाधिकारी उपस्थित होते.

25 साल बाद घर लौटा रामप्रसाद

अटरू | राष्ट्रीय मानवाधिकार एंड एंटी करप्शन मिशन और श्रद्धा फाउंडेशन मुंबई के प्रयासों से 25 साल से लापता रामप्रसाद माली अपने घर लौट आया। जिसे देखकर परिजनों और ग्रामीणों ने खुशी जताई। मानसिक रूप से अस्वस्थ रामप्रसाद भटकते-भटकते केरल पहुंच गया था। वहां की एक संस्था ने वर्ष 2019 में उसे सड़क से उठाकर केंद्र में भर्ती किया। इलाज के बाद उसे श्रद्धा फाउंडेशन, कर्जत मुंबई भेजा गया।

वहां लंबे इलाज के बाद उसकी मानसिक स्थिति में सुधार हुआ। जब उसने अपना पता बताया, तो संस्था के सोशल वर्कर राकेश कुमावत ने राष्ट्रीय मानवाधिकार एंड एंटी करप्शन मिशन के शमशाद खान रंगीला से संपर्क किया। शमशाद खान ने अटरू में राम प्रसाद के परिवार को ढूंढ निकाला। संस्था के सोशल वर्कर राजदीप चौहान रामप्रसाद को लेकर उसके गांव मन्थागण पहुंचे। ग्रामीण उसे देखने के लिए उमड़ पड़े।

घर से भटक गयी युवती दो साल बाद पहुंची अपने घर

प्रतिनिधि, अररिया

भरगामा प्रखंड के जगता स्थित महादलित टोला में खुशी का उस समय ठिकाना नहीं रहा. जब महाराष्ट्र की एक संस्था ने दो साल पूर्व अपने परिवार से बिछड़ी मानसिक विक्रिप्त युवती को उनके परिवार से मिलाया. मामला भरगामा प्रखंड के जगता अंतर्गत मौजहा के बरौहुआ महादलित टोला का है. जहां से काजल कुमारी पिता बिंचू ऋषिदेव मानसिक बीमारी के कारण 02 साल पूर्व अपने घर से निकलकर खो गई थी. जिसका कोई अता-पता उनके परिजनों को नहीं चल

रहा था. इस दौरान जानकारी मिलने पर महाराष्ट्र के कर्जत, रायगड जिले के श्रद्धा रेहाबिलीटेशन फाउंडेशन के फाउंडर सह मनोरोग डॉ भरत वटवानी ने काजल कुमारी (पुष्पा - गुप्त नाम कोड) को नेपाल के मोरंग स्थित

मानवसेवा आश्रम बिराटनगर से पिकअप किया. इसके बाद काजल कुमारी का इलाज कराया गया व 2.5 साल के बाद उसके घर सही सलामत पहुंचाया गया. जिसमें श्रद्धा फाउंडेशन के सोशल वर्कर में शामिल मयूरी भोंग

व पल्लवी जाधव ने काजल कुमारी को सही सलामत भरगामा प्रखंड स्थित उसके घर पहुंचाया. दोनों सोशल वर्कर ने बताया कि काजल कुमारी के घरवाले व सभी गांव वाले उसे देखकर बहुत खुश हुए. परिवार वाले इतने दिनों के बाद ने उसे देख बहुत भावुक हो गये व एक दूसरे से लिपट के रोने बिलखने लगे. बताया गया कि यह संस्था रास्ते पर भटके मनोरोगियों को ढूंढकर उनका इलाज कराकर उनके घर सही सलामत पहुंचाने का कार्य करती है. इस संस्था का ही देन है कि 2.5 साल बाद गुरुवार 19 जून को काजल कुमारी अपने घर सकुशल पहुंच सकी है.
